Thank you for being part of the Generation New Era Pilot Study.

Your participation has helped us to test our questions and processes to improve them ahead of the main study. **Please note that by taking part in the pilot study you will not become part of the main study.**

What will happen in the future?

Your next interview: We will invite you to take part in another interview as your child grows up – likely when they are 3 years old. It will always be up to you to decide whether you want to take part.

Study progress: We'll send you updates with study findings and news by email and post. You can also keep up-to-date at gnestudy.info and on Instagram @gnestudy.

Take part: You have the right to withdraw from the study as a whole or from individual parts, at any stage. To withdraw, please contact us using the details at the end of this leaflet.

BabySteps app: If you've signed up for the BabySteps app, we'll send you regular research tasks and updates via this app.

If you haven't yet registered and would like to, you can use the login code from your interview. Only one parent per family is invited to do this.

How will we stay in touch?

We'll use the contact details you provided to keep in touch. If you gave us the details of someone we can contact in the future if we cannot reach you, **please check they are happy for us to hold and use their details for this purpose.**

We may also use sources such as NHS records, address checking services and publicly available information to help keep your contact details up to date.

If you change your address, email address or phone number, please let us know at:
